

I Survived the California Wildfires

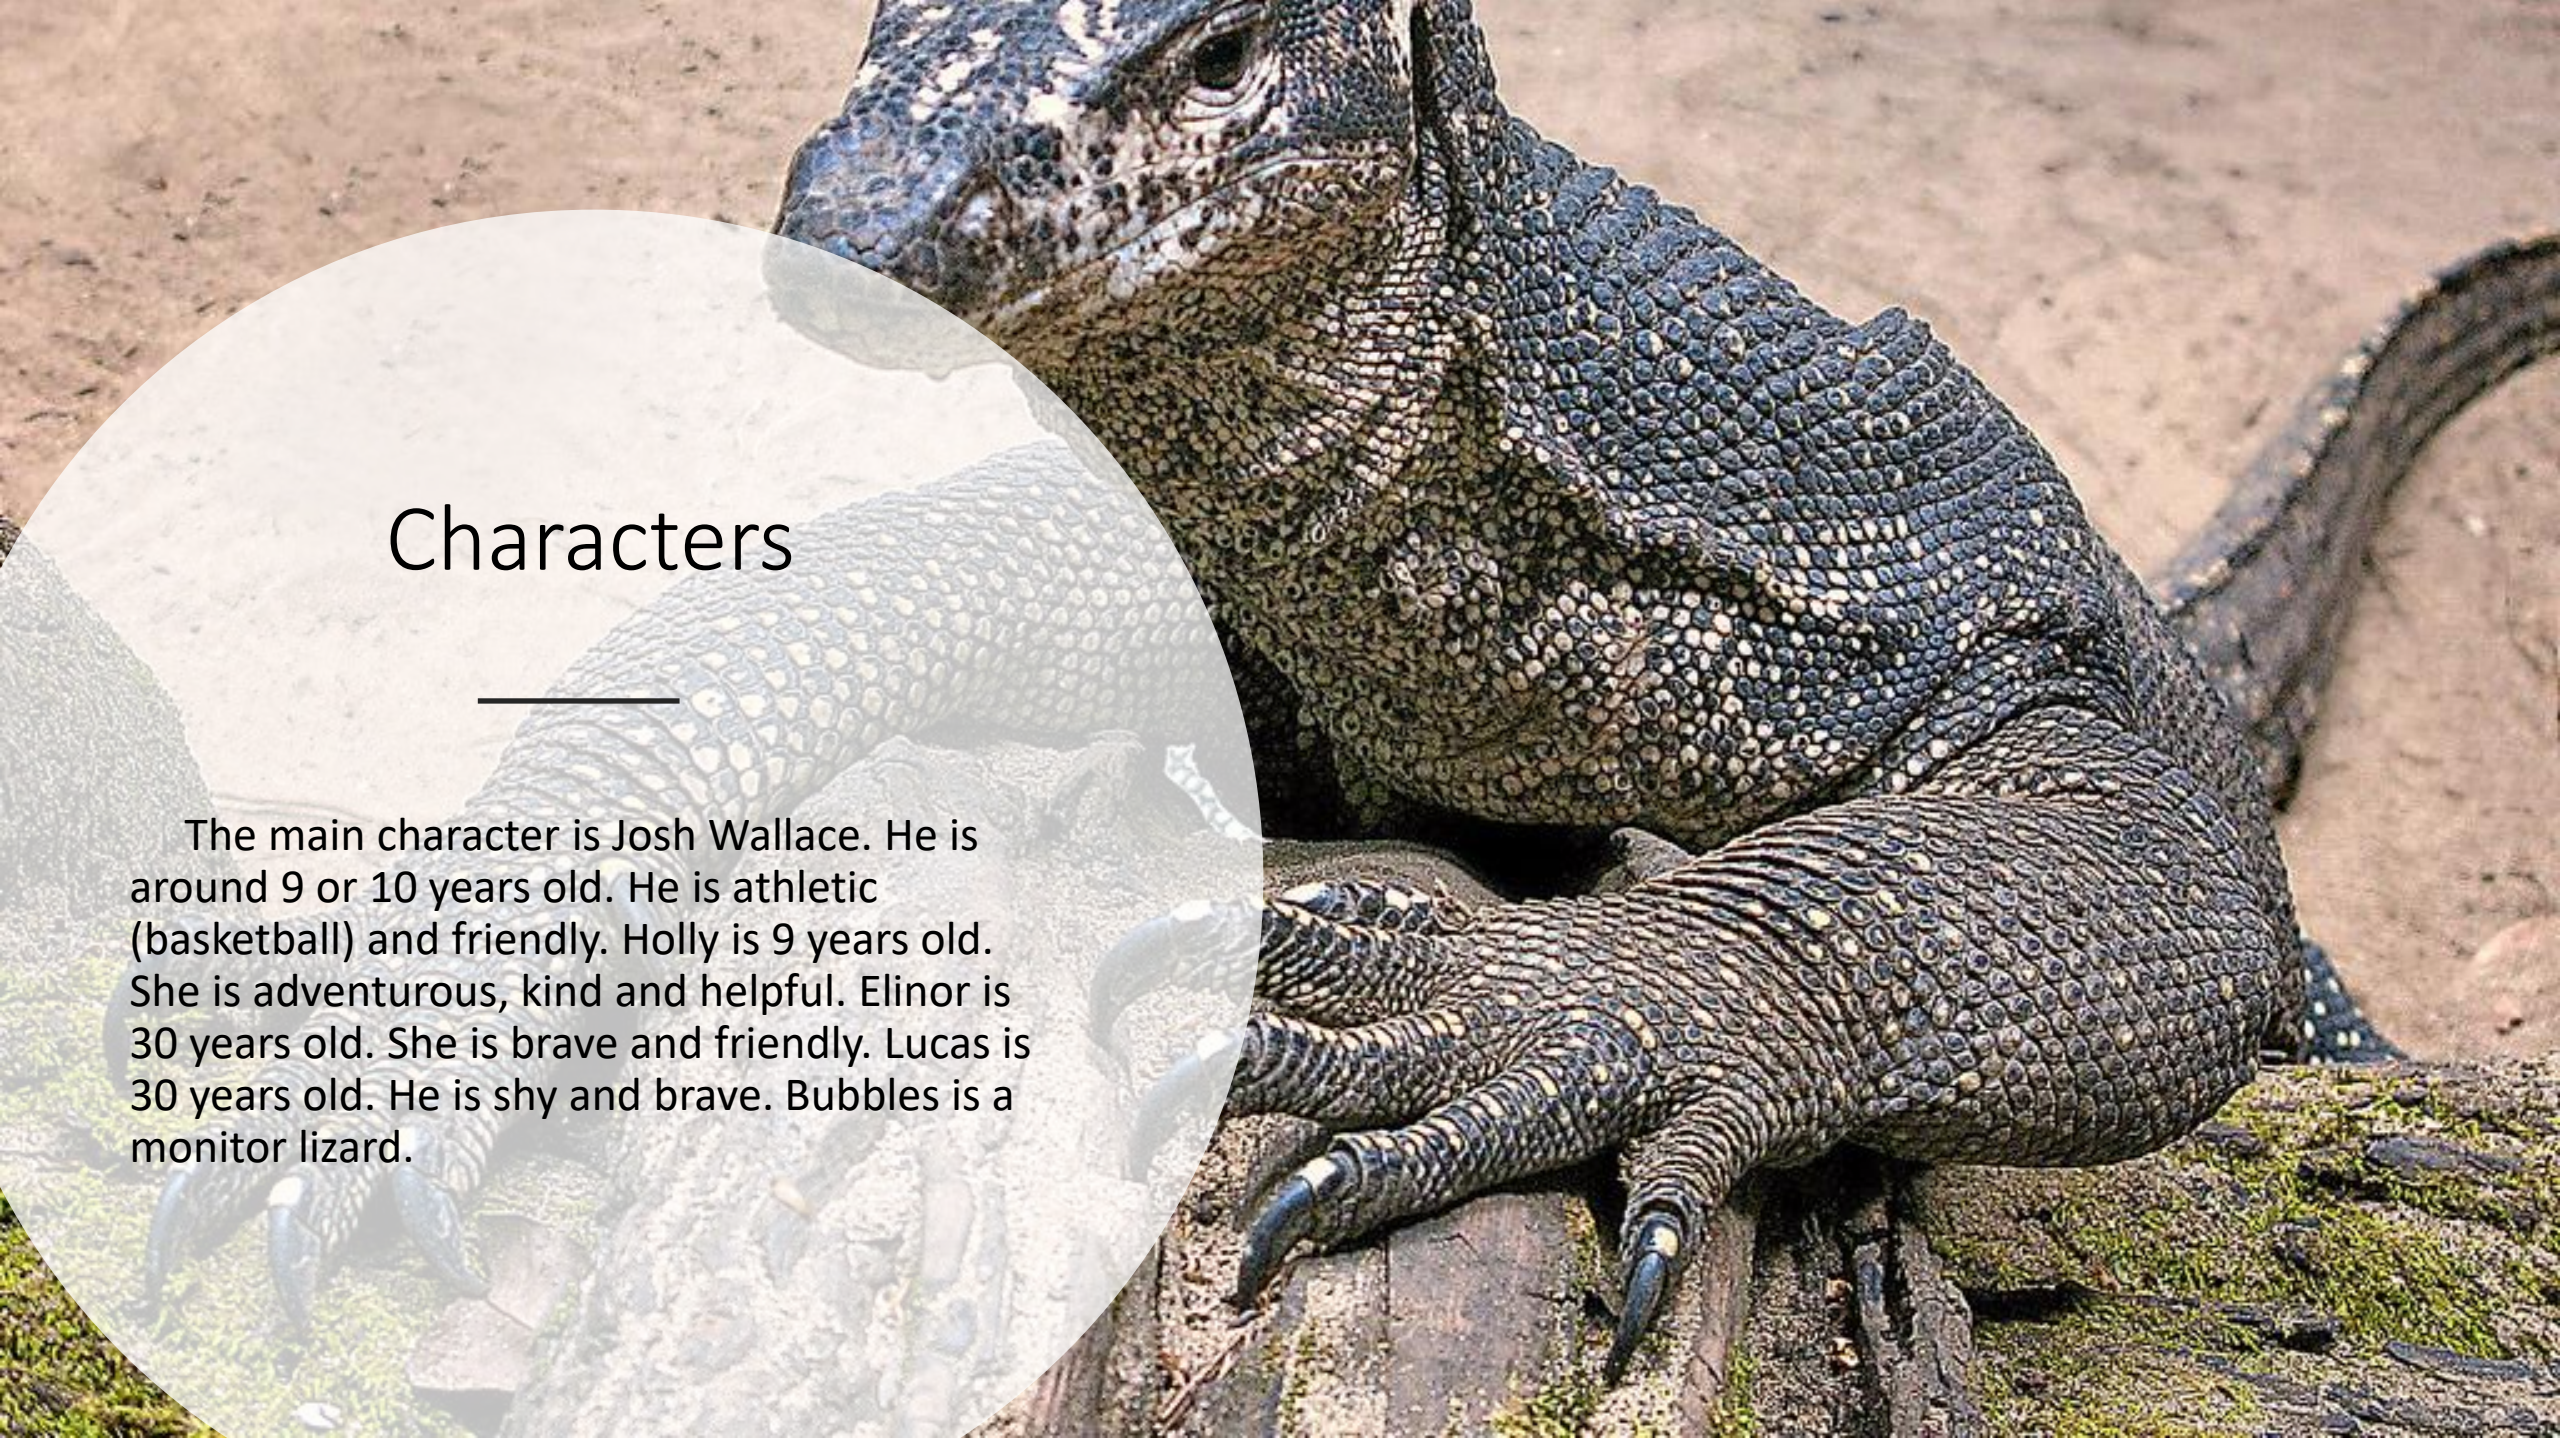

Author: Lauren Tarshis

By

Setting

The setting starts in New Jersey. Then it takes place in Northern California. In both places the season is summer of 2018.

Characters

The main character is Josh Wallace. He is around 9 or 10 years old. He is athletic (basketball) and friendly. Holly is 9 years old. She is adventurous, kind and helpful. Elinor is 30 years old. She is brave and friendly. Lucas is 30 years old. He is shy and brave. Bubbles is a monitor lizard.

Summary

Josh is on a trip to California because his dad stole millions of dollars from the bank! (He worked at the bank). So, Josh's mom said they are going to get away and it was a computer malfunction. They are going to Holly's house. After Josh finds the truth that his dad stole the money, he runs in to the forest surrounding the house. Holly follows him. They started to head back but then the fire started chasing them. The firefighters save them! But Holly broke her leg and Josh got some bad burns.

Recommendation

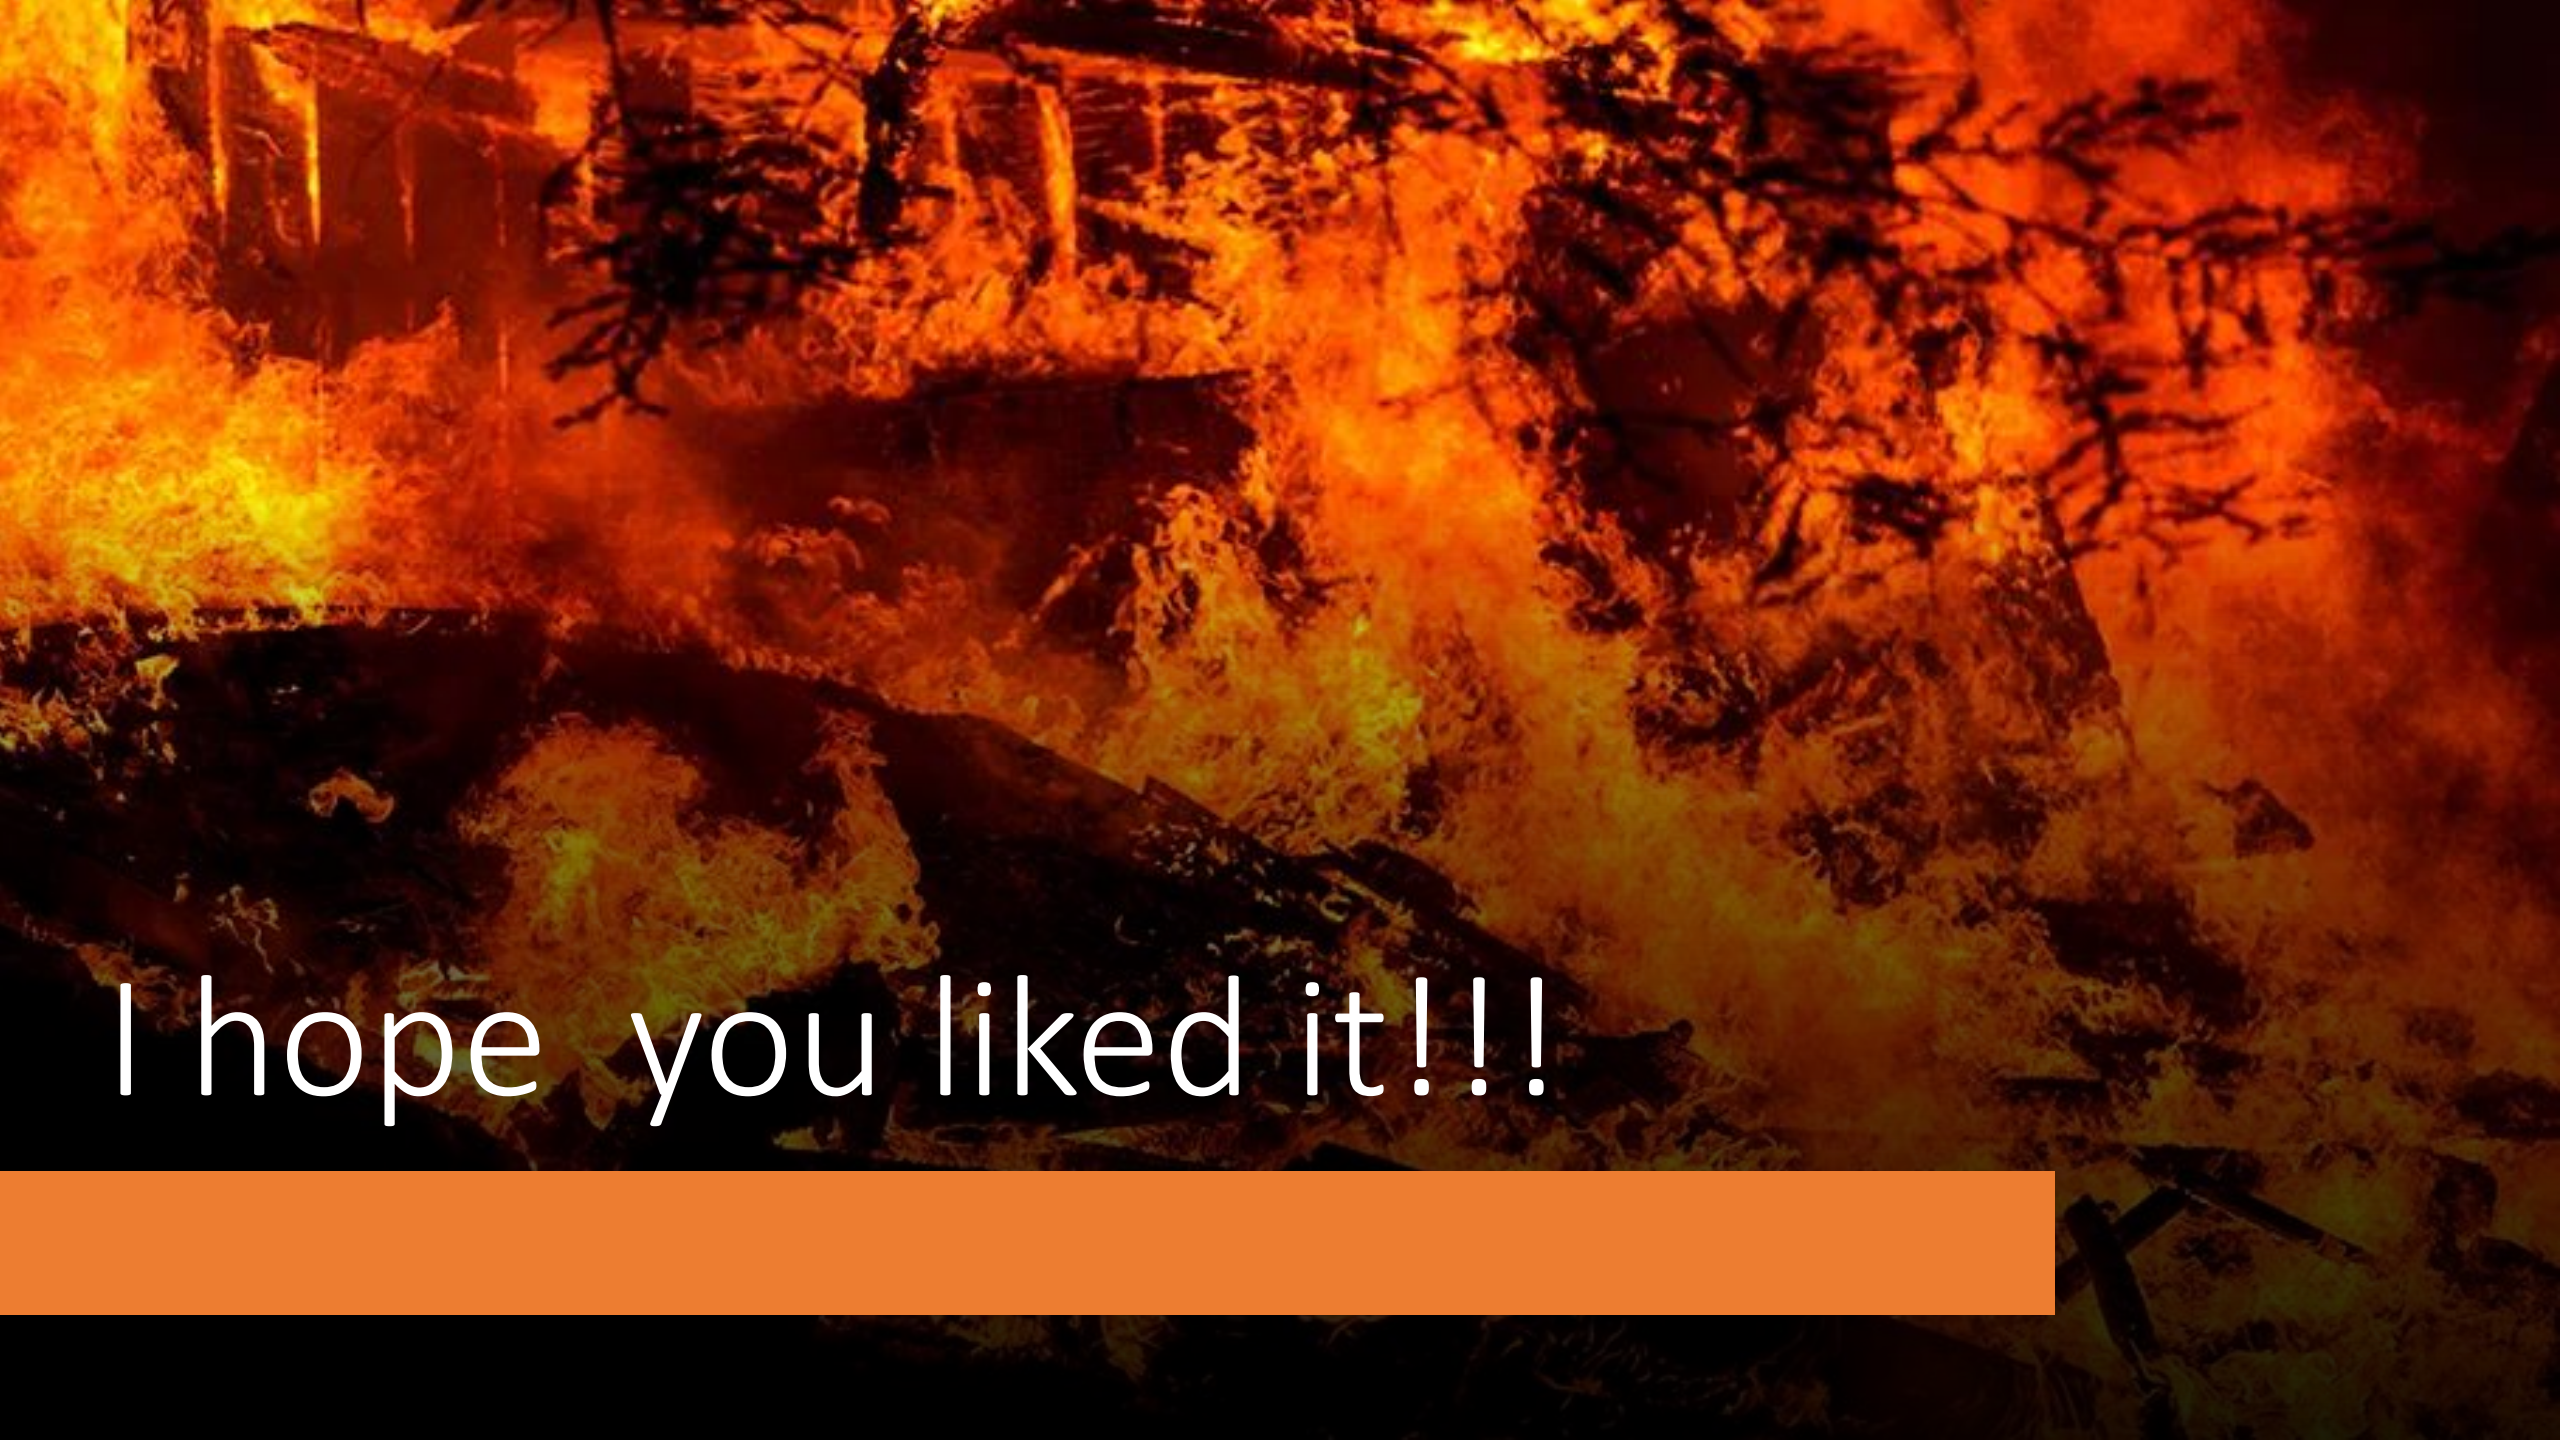

I recommend this book to whoever likes historical books or other events. I really like the I Survived series of books. I would recommend this book for 2-5th grade.

Theme

I think the theme of the book is survival. I think it is survival because they try to survive the California wildfires. Also, I think friendship is a theme because Josh and Holly fight through it together.

I hope you liked it!!!
