Theme

- The theme is don't judge people by how they look. Some people look at a girl in a wheelchair and think she is going to be all cute and Sunshine and needs help because she is in a wheelchair. However Ellie is a normal middle school girl that has big dreams and can do things on her own. So even though she is in a wheelchair she still is a normal girl!

Summary

- The book is about a girl named Ellie and she has CP which is a disease that makes it so you can't walk, so she is in a wheelchair . She loves to bake and she hates when people baby her. Soon they move to Oklahoma to help her grandparents and she meets new friends and she starts to fit in . This story shows that you can do anything no matter how you look or if your in a wheelchair because Ellie did !

Recommendation

- I recommend *Roll with it* because I think that it is an amazing book that teaches you about how a person who lives life in a wheelchair can still do some everyday things on their own. Some people think it is a boring story, however I really disagree because it is fun and exiting book to read not boring .So if you are searching for a book to read this is the book to chose !

Thank You!
